

About: We provide moving labor for people who need help moving. Our website will functions similar to [www.HireAHelper.com](http://www.HireAHelper.com), the only difference is that our customers will be hiring our independent contractors (moving helpers) to help them move instead of hiring a company.

See: <http://haulinassets.launchcorp.net>

Homepage should look like this: <https://ibb.co/kautnk>

Checkout Form Should Look Like This: <https://ibb.co/jfx7DQ>

## **User interface**

- 1- Customer panel
- 2- Helper panel
- 3- Admin

## **Customer**

Customer panel and customer features

- 1- The customers will be able to register to the website after they complete checkout -once a customer has an account on the website they will be able to see their upcoming orders, moving helpers that they've chosen,
- 2- Customers can login anytime and create their profiles
- 3- Customers can input all their details and upload pictures
- 4- Customers will be able to search for helpers in moving assistance from one zip code to another .
- 5- Customers can put the following information on the search form

- 1- Select the Date, Start Time Window (should be adjustable by admin), Moving from zip code, amount of time they need help for (2,4,6,8 hours – adjustable by admin).
- 2- Customers should Be able to select the number of moving helpers they need (number of moving helpers will coordinate with the number of moving helpers who are signed up on our website). Minimum is one helper at 2hrs for \$83

Once The user provides their criteria for the moving open clicking on search these are the steps that will be followed

- 1- The customers will be provided with list of available helpers based on their search parameters and the availability of helpers. Helpers can be sorted by reviews or number of jobs completed.
- 2- They will be able to choose the number of helpers that they chose in step 1 only.
- 3- Once the selection process of the helpers are made based on results shown ,they will be proceeded to the payment process page. Process page should look the checkout page that [www.HireAHelper.com](http://www.HireAHelper.com) uses. We will provide a picture.
- 4- Payment will be processed through paypal
- 5- Once the payment is successfully made ,the helpers will be notified via email about the work assigned to them with contact details of the customers so that they can connect to each other.
- 6-After payment is submitted a unique payment code will be generated. Which will be used to release payment to moving helpers after move is complete. Customer will input code on website to authorize release of payment to moving helpers from admin.
- 7- After the work is set as complete by the customer, the customer will be able to provide reviews for the helper that were hired. Reviews will be displayed on the website.
